Reference: Lucas Drywall
Subcontractor providing Metal Stud Framing, Drywall Systems, and Acoustical Ceiling Installation

To Whom It May Concern:

Kraus-Anderson is pleased to provide a reference on Lucas Drywall for whom we have worked with since May of 2008. During our most current project, The Wilderness at the Smokies, their scope of work included Metal Stud Framing, Drywall Systems, and Acoustical Ceiling Installation with contracts totaling \$3,380,000.00. Lucas Drywall has been a major contributor in Kraus-Anderson's success on the Wilderness Project, helping us to complete work with a high level of quality, reliability, and timeliness. We have now established a firm working relationship with Lucas Drywall as a subcontractor and look forward to continued business with them on upcoming projects. I highly recommend that Lucas Drywall be afforded the opportunity to work for you on your project.

Sincerely,

KRAUS-ANDERSON® CONSTRUCTION COMPANY
